

Vaishnavi Rajkumar Arsekar

Application Security Engineer

✉ vaishnaviarsekar@gmail.com ☎ 9145112278 📍 Pune

SUMMARY

Software Engineer with 2+ years of experience in C#/.NET and Application Security, working on enterprise ASP.NET-based ESS, Mobile and Kiosk applications. Hands-on experience in VAPT, vulnerability reproduction and remediation using Burp Suite, with a focus on securing web applications and resolving security findings. Experienced in debugging, secure coding and delivering practical security demonstrations to development teams.

PROFESSIONAL EXPERIENCE

Associate Software Engineer

Elisys Technologies

06/2024 – 09/2026

Pune

- Remediated 40–50% of identified VAPT vulnerabilities across enterprise ESS, Mobile and Kiosk applications, based on external assessments and client security reports.
- Reproduced and validated vulnerabilities using Burp Suite, investigated root causes and implemented fixes in C#/.NET.
- Addressed vulnerabilities including SQL Injection, Blind SQL Injection, XSS, Authentication Bypass, Privilege Escalation, Session Hijacking, IDOR, Force Browsing, CORS misconfiguration and API token exposure.
- Resolved authorization and session security issues involving unauthorized access to other users' data and higher-level functionality, along with cookie security and internal path disclosure findings.
- Implemented rate-limiting and brute-force protection using IIS IP Address and Domain Restrictions, and validated security fixes with development teams.
- Delivered practical security demonstrations to 20+ developers using Burp Suite, explaining vulnerability impact and remediation approaches through online and in-person sessions.
- Developed and supported enterprise applications using C#, ASP.NET, .NET Framework 4.8, JavaScript, EasyUI and SQL, across Travel & Expense, Leave & Attendance, Training, Probation, Exit and Payroll modules.
- Debugged and resolved UI, backend and L3 issues through independent testing, troubleshooting and root-cause analysis.

EDUCATION

Bachelor of Computer Applications

Savitribai Phule Pune University

CGPA: 9.5 / 10

06/2021 – 01/2024

Pune

SKILLS

- **Language** — C#, SQL, JavaScript
- **Framework & Technologies** — ASP.NET, .NET Framework 4.8, Web API, EasyUI
- **Application Security** — VAPT, Vulnerability Assessment & Remediation, OWASP, Secure Coding, Web Application Security, Cloud Security
- **Security & Performance Tools** — Burp Suite, Aikido, Fiddler, SQLMap, Wireshark, Kali Linux, JMeter
- **Version Control & Tools** — Git, Bitbucket, SourceTree

SECURITY PROJECTS & INITIATIVES

Security Header Analyser — C# / ASP.NET

- Developed a C# / ASP.NET application to analyze CSP, HSTS, X-Frame-Options and X-Content-Type-Options, map configurations to OWASP security risks, and provide 0–100 security scores, letter grades and remediation recommendations.

Security Training for Developers

- Delivered multiple practical security sessions for development teams, demonstrating real application vulnerabilities using Burp Suite and explaining their impact and remediation in C#/.NET applications.

CERTIFICATES

Ethical Hacker — Cisco, Introduction to Cybersecurity — Cisco, API Security Fundamentals — APIsec University

AWARDS

Student of the Year

Sarhad College of Arts, Commerce & Science

2024
